

SYSTEM ONE® PARTS

PN: 967127 **PARTS LIST**
1301-C02-08

Frame A and LD17 Size 1.5x3-13

Keep with Instructions 1301-C00 for Installation, Operation and Maintenance

Section	1301
Effective	Oct 2013
Replaces	Jan 2013

	Page
X-Section Drawings	
Frame A	2
LD17	3
Casings & Impellers (Ref #1 & 2)	4
Shafts / Rotating Elements (ref #6)	5
Back Covers (Ref #11)	6
Other Parts (Ref #16 - 506)	7 - 8

Frame A and LD17 pumps share all parts except:

Ref 6	Shafts and Rotating Elements
Ref 11	Backcovers (& hardware)
Ref 71	Frame Adaptors

Low Speed (FRA08L, LD08L) versions are for use at 1800 rpm and below.

High Speed (FRA08H, LD08H) versions are for use at over 1800 rpm.

High Speed versions feature 17-4 shafts and impellers with balance holes as standard.

Recommended Spare parts (Ref # is shaded.)

Ref #	Description
2	Impeller
6-RE	Rotating Element
72	Frame Adapter O-ring
73A	Casing Gasket
80	Mechanical Seal
89B	Lab Seal Rotor (w/ O-ring), Thrust Bearing
89E	Lab Seal Rotor (w/ O-ring), Radial Bearing
405	Cartridge O-ring

Дистрибутор:

Ref #2		Impeller Assembly Frame A and LD17		1.5x3-13			
Impeller assembly includes trim, ISO G 6.3 balance and PTFE O-ring (098296). Specify trim at time of order. Unspecified impellers ship with full trim. There is a charge to retrim impellers after shipment. (981631) Lock Bolt impeller assembly also includes lock bolt (640644) and washer (628585). Keyed impeller assemblies includes Bolt, Bushing, Jack screws, and O-ring. (CF for part #s) Specify balance holes for 13" impellers running over 1800 rpm.

6 Shaft Assemblies and Rotating Elements.

17-4Ph shaft material is required for the following sizes operated over 1800 rpm: 4x6-10 and all 13".

Ref# 6-RE: Rotating Element Includes shaft assembly (6-SA), bearings (16&18), bearing cover (35), flinger filter (62).

Ref# 6-SA: Shaft Assembly Includes shaft (6), locknut (22), locknut washer (69), and key (46).

(Ref# 6-SA: Shaft Assembly for keyed impellers also include impeller key as noted.)

All shafts are stated material in the wet end portion and carbon steel in the power end portion.

<p>Original Frame-A design uses 5310 thrust bearing and shaft is 1.125" at the coupling end.</p> <p>If ordering a shaft assembly or a rotating element for an original ANSI Fame-A power end, it is highly recommended that the power end be converted to the current standard with angular contact thrust bearings. This can be accomplished by using a current design rotating element (as listed above), thrust labyrinth seal, and a new coupling half for the larger shaft diameter.</p> <p>Parts required to convert ANSI Original Frame-A Power End (1.125" cplg. end) to current design (1.375" cplg. end):</p> <table> <tr> <td>1 ea Rotating Element Frame-A</td> <td>see table above for PN</td> </tr> <tr> <td>1 ea Thrust Lab Seal Stationary 1.50" NPS**</td> <td>364238**</td> </tr> <tr> <td>1 ea Thrust Lab Seal Rotary 1.50" 316SS</td> <td>090697</td> </tr> <tr> <td>1 ea Coupling half for 1.375" shaft</td> <td>by others</td> </tr> </table> <p>** If cartridge (33) is also being replaced, this item is unnecessary.</p>					1 ea Rotating Element Frame-A	see table above for PN	1 ea Thrust Lab Seal Stationary 1.50" NPS**	364238**	1 ea Thrust Lab Seal Rotary 1.50" 316SS	090697	1 ea Coupling half for 1.375" shaft	by others

REF #11 Back Cover Assemblies Frame-A						
Cover includes integral seal chamber and is backwards compatible with old two piece design. Cover assembly does not include gasket (73A). Cover assembly machined for bushing does not include bushing. Cover assembly machined for jacket does not include the jacket. Cover assembly machined for tap includes plug for tap (361388). CN7M, HB, HC covers use same alloy plugs.						
Bush/Other options	DI	CF8M	CD4MCu	CN7M	HB	HC
13 inch Frame A Part Number for Back Cover Assembly						
Standard for carbon bush	363766	364161	364190	685160	644170	628587
For jacket	059469	059471	059473	643228		981095
With tap	628812					
For jacket/with tap		801543	982900			
Optional for Enviroseal	644079	628860				
For jacket	981415	982369				
With tap						
For jacket/with tap						

REF #11 Back Cover Assemblies LD17						
Cover includes integral seal chamber and is backwards compatible with old two piece design. Cover assembly does not include gasket (73A). Cover assembly machined for bushing does not include bushing. Cover assembly machined for tap includes plug for tap (361388). CN7M, HB, HC covers use same alloy plugs. Seal chamber jacket not available on LD17.						
Bush/Other options	DI	CF8M	CD4MCu	CN7M	HB	HC
13 inch LD17 Part Number for Back Cover Assembly						
No bushing with tap	363936	685053	685474			
Carbon/14K with tap	097407	697732	644361			
EnviroSeal with tap	801264	801118	644158			

Hardware included with standard Back Cover Assemblies
